

Respecting your privacy – how we use Cookies on this site

Our website uses cookies, as almost all websites do, to help provide you with the best experience we can. Cookies are small text files that are placed on your computer or mobile phone when you browse websites. Our cookies help us:

- Make our website work as you'd expect
- Remember your settings during and between visits
- Improve the speed/security of the site
- Allow you to share pages with social networks like Facebook

We do not use cookies to:

- Collect any personally identifiable information (without your express permission)
- Collect any sensitive information (without your express permission)
- Pass data to advertising networks
- Pass personally identifiable data to third parties
- Pay sales commissions

You can learn more about the cookies we use below:

Granting us permission to use cookies: If the settings on your software that you are using to view this website (your browser) are adjusted to accept cookies we take this, and your continued use of our website, to mean that you are fine with this. Should you wish to remove or not use cookies from our site you can learn how to do this below, however doing so will likely mean that our site will not work as you would expect.

Website Function Cookies: We use cookies to make our website work including remembering your search settings. There is no way to prevent these cookies being set other than to not use our site.

Social Website Cookies: So you can easily "Like" or share our content on the likes of Facebook and Twitter we have included sharing buttons on our site. Cookies are set by the privacy implications on this will vary from social network to social network and will be dependent on the privacy settings you have chosen on these networks.

Turning Cookies Off: You can usually switch cookies off by adjusting your browser settings to stop it from accepting cookies. Doing so however will likely limit the functionality of this website and a large proportion of the world's websites as cookies are a standard part of most modern websites. It may be that your concerns around cookies relate to so called "spyware". Rather than switching off cookies in your browser you may find that anti-spyware software achieves the same objective by automatically deleting cookies considered to be invasive.

Thank you for reading this information.
